

WORKSHOP

SCUOLA DI ARCHITETTURA URBANISTICA
INGEGNERIA DELLE COSTRUZIONI

DESIGNING SUSTAINABLE AGRICULTURAL BUILDINGS

PARCO LOMBARDO DELLA VALLE DEL TICINO E POLITECNICO DI MILANO

Application to be submitted by 30.06.2021

from 06.09
to 17.09

The workshop aims to find innovative solutions for new productive agricultural constructions in a protected environment, energetically sustainable, made with ecological and recycled materials, economically sustainable, and properly inserted in the landscape.

The workshop arises from the partnership between *Landscape Commission of the Ticino Park* and the *ABC department* and the collaboration with the *Agrarian Science Faculty of Università degli Studi di Milano*.

"Best Sustainable Agricultural Building Award" will be provided by Ticino Park, UNESCO MAB for new construction and for the recovery of an existing building.

Professors Involved:

Paola Branduini/ *Coordinator*
Laura Daglio/ *Architecture technology*
Valeria Pracchi/ *Restoration and energy efficiency of historic buildings*
Camilla Lenzi/ *Heritage economics*
Giovanni Sala/ *Agronomy and farm management*
Lionella Scazzosi/ *Protection and enhancement of the landscape*
Domenico Chizzoniti/ *Architecture composition and urban design*
Giorgio Provolo-Elisabetta Riva/ *Rural buildings, Università degli Studi di Milano*

Contribution: 50 euros (Includes survey and meals every survey)

Maximum number of participants: 20 (25 maximum)

Number of credits: 4 CFU

The workshop will be held in presence, however distance attendance will be considered
